TRAINS COLLIDE.

Nine Men Killed and Eight Others Receive Serious Injuries.

Both Engines Were Converted Into Scrap Iron and Twenty Freight Cars Piled Up in a Heap-Several of the Killed Were Tramps Stealing a Ride.

POCATELLO, Ida., May 28.-A headend collision between a freight and passenger train at American Falls, 25 miles west of here, at 4:30 o'clock, caused the death so far as known of nine men and the serious injury of eight others. Two of the latter will die. This is the worst wreck that has occurred on the Short Line in many years.

The westbound passenger train was waiting for the freight at American Falls, standing in front of the station building. The freight coming east ran away on the hill west of the falls. It is thought the air brake was tampered with. The freight, running 50 miles an hour, crashed into the passenger which was already backing up right in front of the station. Two men were on the station platform, one was killed and the other fatally injured. The station building was shattered. Both engines were converted into scrap iron and 20 freight cars piled up in a heap.

Eight box car passenger sheep shearers and tramps were crushed to death. Up to noon five bodies had been taken out. George Moore, the engineer of the freight, is seriously injured. The fireman, Dick Cosgrove, had a leg broken and C. E. Heckman, engineer of the passenger, sustained slight injuries. He stayed by his engine until he had reversed it. The conductor and brakeman were on top of the freight setting the brakes and Fireman Cosgrove had climbed back to help when the crash came.

The dead are: C. W. Shields, 35, residence unknown; D. L. Thompson, Dayton, Wash ; John R. Cooper, Wellsville, Utah; J. Steffen, Dillon, Mont.; Five unknown men all sheep shearers beating their way. The injured besides trainmen already mentioned are: G. W. Brennan, Pearl, Idaho, leg broken; F. D. Springer, Dayton, Wash., leg broken; John Bergan, Brigham, Utah, leg broken; John Peters, residence unknown; William Donnelly, Great Harrington, Mass., crushed and injured internally-will die.

TEXAS FLOODS.

Over Three Handred Families Homeless Residences in the City Inundated.

EL Paso, Texas, May 29. - Over 500 homeless families, or 2,000 people were on the streets of El Paso, Friday morning, searching for shelter. Their furniture, clothing, etc., were piled up all along the principal thoroughfares of the city. Thursday night the waters continued to rise and before day had dawned, had reached that portion of the city in and around San Antonia street where prominent business and professional men reside. After 11 o'clock Friday night the flood swept over six more blocks. The waters were full of struggling teams hauling out property from the flooded houses. The 'lexas and Pacific railroad had thrown up a dyke to protect its track near the round house, and this backed the water up over San Antonio street, flooding a number of houses and threatening to cross the street, and flooded hundreds of the prettiest residences in the city. Six prominent citizens residing in the vicinity, headed by Collector of Customs Capt. Davis, armed themselves with Winchesters, and crossing over the railroad levee, cut the dyke, letting the backwater out and it began to recede from San Antonio street.

A troop of the Fifth cavalry from Fort Bliss came down to the city Friday and offered their services to guard property of homeless people which was piled in the streets. The city board of health met Friday morning and appointed a committee of six physicians to take charge of a relief hospital being established for the homeless and sick and the physicians are taking them to the improvised hospital. Col. Van | Valzah, of Fort Bliss, loaned the city 53 tents and citizens' committees were out Friday with wagons gathering provisions for distribution among the destitute. At least four aundred out of the 520 families whose homes are under water are without the necessities of life. Friday morning the city council held a meeting au thorizing the mayor to wire Texas senators and representatives in con gress to secure an appropriation of \$10,000 for relief of the flood victims. The war department has also been ap-

John J. John on, the Logansport Bank Wrecker, Sentenced.

INDIAL APOLIS, Ind., May 29. - John J. Johnson, late president and cashier of the State National bank of Logansport, was sentenced to ten years in the Friday morning, by Judge Baker, of the United States court for the district of Indiana. There was no sensation, and Johnson received the words of the judge without a tremor, and Mrs. Johnson, who was present in the court emotion. By counting off good time

Johnson pleaded guilty to indictments charging him with wrecking the Logansport bank. These indictments practically included every section of the national banking law. Before sentence was passed by the court, John R. Wilson, Johnson's attorney, read a certificate of Johnson's previous good character, that had been secured at Logansport. A written statement by Johnson was also read.

> Royal Family's Position Critical. London, May 29.—The Morning Post's correspondent at Constantinople says: Friday the embassies received word from their respective ministers at Athens that the position of the Greek royal family is now critical. King George is practically barricaded in the palace, and it is reported that he is making his preparations to leave Athens in order to avoid the fury of the populace. The relations between the king and M. Ralli, the premier, are very much strained, and the general situation is extremely critical.

TAX ON BEER.

An Amendment to the Tariff Bill Against All Distilled Spirits 70e a Gallon.

WASHINGTON, May 29. - Senator Cullom Friday presented an amendment to the tariff bill which proposes to strike out the provision of the bill increasing the tax on beer and inserting a provision making the tax on all distilled spirits 70 cents a gallon. It provides that the tax shall be levied on spirits in bond at the time the law goes into effect or may be then or thereafter produced in the United

a meeting of his committee for the purpose of considering the Tillman resolution making sensational charges in relation to the sugar schedule of the tariff bill. It is believed to be either Bulgaria or Servia will abandon probable that the resolution will reported back to the senate. and that the senate will order an investigation. There may be some delay on the part of the committee in acting on the resolution, but the presumption is that if a report is not soon forthcoming a motion will be made to discharge the committee and bring the resolution before the senate. That would mean a direct vote and it is believed probable that on such a proposition the senate would vote to consider the resolution and order the investigation. An effort to discourage an inquiry is being made and it is quite apparent that many senators do not want any, but if there is an insistance upon an investigation, it scarcely can be avoided. The declaration of Senator Aldrich that the members of the sub-committee on finance courted the fullest investigation, is regarded by some senators as a challenge which must be met and which can be met only with an investigation.

The senate Friday confirmed the following nominations: James Edmund Boyd, North Carolina, assistant attorney general; Francois S. Jones, of the continuance of the reci-Louisiana, to be secretary of the legation of the United States at Buenos Ayres, Argentine Republic; Commander Charles O'Neil, U. S. N., to be chief of the bureau of ordnance in the navy department.

The cabinet meeting Friday partook more of a routine character than usual, being largely devoted to a discussion of small matters of departmental business. For the first time in many weeks Cuba was not mentioned at the meeting, Gen. Lee's advices to the effect that he had a sufficient store of food and supplies for immediate necessities going a great way to allay the demand for speedy action.

Estrada Palma, of the Cuban junta called at the state department Friday and had a short interview with Assistant Secretary Day. He was introduced to Judge Day by Third Assistant Secretary Cridler in a purely personal capacity, and it was stated positively that the call had no connection with any propositions for the purchase of Cuba or indeed with the politics of the situation at any point.

Mr. Mills goes in the capacity of secretary and attache to the special embassy. The commissions for the members will be beautifully engrossed and altogether the occasion is special in every respect so far as the state department is concerned. Whitlaw Reid bears the title of special ambassador on special mission as the representative of the president, and Gen. Miles and Adm. Miller will have spe cial commissions. The ambassador himself will carry for presentation in person to the queen a letter from the president which in general terms will be similar to that addressed to her upon the occasion of her jubilee celebration ten years ago. It is formal, yet kindly in tone and expresses the appreciation of the president of the great good that has followed the long reign of her majesty and hopes of a

IN CONGRESS.

Its Increase-Provision to Make Tax or Remarkable Progress Made on the Tariff Bill in the Senate.

> The Hawalian Question Will Probably Providing Continuance of Reciprocity Treaty With the Islands.

WASHINGTON, May 31.-The impression was general about the senate at the close of the first weeks discussion of the tariff bill Saturday that the Is weakness of the stomach. It is sugar schedule would be reached to source of untold misery. It may be cured wards the close of the present week. by toning and strengthening the stomach The progress so far made, while it was much less marked Saturday than Hood's Sarsaparilla. Many thousands on previous days is generally regarded as little less than phenomenal as modern tariff debates go. Senator Vest declares that the present bill is as far advanced now as was the Wilson bill after five weeks discussion, while Senator Jones, of Arkansas, asserts that as much of the bill was passed over the first day of consideration as was disposed of in the Wilson bill in three weeks. The republicans generally concede that good progress has been made, but they are not inclined to felicitate themselves too much until they see what policy is to be pursued when questions of more general interest are reached than have yet been broached. The sugar schedule in all probabil-

ity will excite more prolonged and animated debate than any other in the bill. The democrats are making very extensive preparation for the discussion of this schedule and several set speeches will be made upon it. The indications are that various other questions of general interest will be considered in connection with the sugar duty. Senator Pettigrew is contemplating presenting his amendment against trusts in this connection, and it is certain that the Hawaiian question will come to the front in an amendment providing for procity treaty with the Hawaiian islands. With reference to the Hawaiian treaty, there is no longer much room for doubt that provision will be made to continue the present treaty in effect. It is probable that this will be done by a direct declaration that nothing in the bill shall be construed as abrogating the treaty. The republican members of the committee are contemplating this change. If Senator Pettigrew insists upon offering the trust amendment to this schedule he will precipitate one of the most interesting debates of the session. The republicans are not yet decided whether they will caucus on the sugar schedule, but there is more or less talk to this effect.

There are two schedules to be considered after the conclusion of that under present discussion before the sugar schedule can be reached. These are the metal and wood schedules. The metal schedule is not especially objectionable to the democrats, containing as it does many of the Wilson law rates, but it is more or less complicated and will necessarily consume time. The wood schedule will develor no little antagonism on account of the duty on lumber. There will be a quite determined effort to restore white pine lumber to the free list.

The Tillman resolution for a sugar investigation probably will be reported to the senate Tuesday. It will be passed without difficulty when taken up, according to the present outlook; but Senator Tillman will find opportunity to make another speech if there is any apparent effort at delay. The senate will not be in session Monday, having adjourned over on account of Decoration day.

The attempt to embarrass Speaker Reed for the programme of inaction pursued by the majority has become the settled policy of Representative Simpson and other members of the minority and the sessions of the house this week will witness a continuation of these tactics. The conference reports on the sundry civil and Indian appropriation bills are ready for consideration and this week the leaders would like to dispose of them. But the difficulty now is that many of the members have gone home and at present there is no quorum in the city. This will interfere with the desire of the leaders to recess until Tuesday, when the house meets Monlay, and compel an adjournment until Thursday. On that day, if a quoram is present, the house will proceed with these two conference reports and ilso the bill carrying a special appro-
